

## Level 1

### Shop

The strings that appear in the front office (default theme) and the content aimed at customers.

## Level 2

### Shop.Pdf

PDF files sent to customers (for example, an invoice or a delivery slip).

### Shop.Theme

The strings attached to the classic default theme.

## Level 3

### Shop.Theme.Catalog

All the strings related to the store's catalog (for example, product pages or categories).

### Shop.Theme.Checkout

All the strings related to the act of buying.

### Shop.Theme.Customeraccount

All the strings related to the management of a customer account and the orders.

### Shop.Theme.Actions

All the call-to-actions, buttons, or links that appear on the store and that aren't specific to a page or context.

### Shop.Demo

Content from the demo products and demo pages (for example, "About us" or "Terms and conditions of use").

### Shop.Demo.Catalog

All the strings that are used for demo products and categories.

## Level 1

### Shop

The strings that appear in the front office (default theme) and the content aimed at customers.

## Level 2

### Shop.Notification

The warning, error, or success messages that appear in the front office.

### Shop.Forms

The forms that appear in the front office (for example, the "Contact us" form).

## Level 3

### Shop.Notification.Error

### Shop.Notification.Success

### Shop.Notification.Warning

### Shop.Notification.Info

### Shop.Forms.Labels

The labels that appear in the front office forms.

### Shop.Forms.Errors

The error messages that appear in forms (distinct from the theme errors, these ones are specific to the form and will display just below the field.)
